

### <Three attractive places in Kansas>

**English Name : LEO**  
**ID Number : 2005101692**

**Korean Name : 문계방 (Moon Gye Bang)**

It is a bit challenging to find interesting things in Kansas along the 12.8 miles of the Mother Road. Kansas Route 66 seems so quiet. However, I want to introduce fun and exciting places in the state of Kansas for young people who like participating in something special; something they cannot do ordinarily. What can we enjoy in Kansas?

First, let's go to the Renaissance Festival in Kansas City. This annual festival is a story book re-creation of a 16<sup>th</sup> Century English Village that is offered for seven weekends. Meeting Renaissance people and culture in the 21<sup>st</sup> Century is a unique experience.

Next, we can go to fun spot with friends. All Star Adventures in Wichita offers over 26 attractions. For example: amusement rides, miniature golf, batting cages, an arcade and so on. In addition, you can schedule birthday parties, group events, and corporate outings at All Star. Therefore you can have a great time with many friends.

Finally, I want to recommend Rock River Rapids in Derby, KS. There are 3 pools and 6 slides including an Olympic-sized pool, the lazy river, and the water playground. We don't have to worry about hot summers here. How many times can we visit the water park in a year? Maybe one or two times, I think. This coming summer, plan to go to the Rock River Rapids as often as you can.

Just stop and have fun in Kansas when you make your Rt. 66 trip. You can enjoy a truly fun and unique experience. I really want you to have an unforgettable time in Kansas.
