

Have you ever been to Kansas?!

NUMBER : 2004100880

NAME : Osem (오세흙)

Finding interesting things for university students to enjoy in Kansas along Rt. 66 is a challenge. However, there are a few surprises along the 12.8 mile road. The interest and attraction could be from the photo opportunities and some of the interesting stories from the Mother Road in Kansas.

First, the place that I recommend you go further west, past where Rt. 66 curves south to Oklahoma. Keep traveling west to Wichita. You can then discover the Wichita zoo. The Wichita zoo in northwest Wichita is the largest zoo in Kansas and one of the largest in the United States. Displaying nearly 2500 animals of 500 species, it is the No.1 outdoor, family tourist attraction in Kansas. So, you can have a great time with your family and friends as well.

Second, I would like to tell you about the Old Cow-town Museum. The Old Cow-town Museum is an educational institution dedicated to preserving and presenting the history of Wichita and Seawick County, Kansas from 1865-1880.

The museum holds over 10,000 objects that pertain to the life and history of Wichita and Seawick County, Kansas. The primary purpose of the collection is to furnish the historic buildings and demonstrate daily life.

Third, university age students can visit El Dorado State Park, El Dorado, Kansas. This is the largest park in Kansas. Many people relax in this park and enjoy fishing in Old Bluestem Lake. In this park, you can have a picnic and play active games as well.

Now, have you decided where to visit in Kansas? Why not travel Kansas?! I am sure you can have a fantastic time and do meaningful things if you travel Kansas...on or near Rt. 66.

Just believe me!
